CHAPLAIN'S CORNER

Always be ready with a kind word or smile, no matter the season. They're always in style. They can do wonders where medicine has failed. Kind words and a smile uplift the lonely, the sick and frail. Whenever, through kindness, you show that you care, that rough road seems smoother, the waters calmer and true friends, like true treasures, are special. Be that special one with a kind word and that special smile.

Reprint from Tom's first as Chaplain, September 2015 edition

'Distinctive Communicator' is an award for publications that meet or exceed USPS defined criteria. Our Force 12 has been recognized for this award.

Reprint of Monthly Articles By P/C Tom Krupa, P

Due to popular 'demand' and the fact that the editor has a box of prior Force 12 publications, the following is a reprint of Tom's first article called This & That written for the March 2002 Force 12:

I know (because I've been told many times) Force 12 articles are due the first Friday of each month. As has been my pleasure the past three years, here I am with my machine ready to write my article, but I've been voted out of office and am free of this (task) pleasure.

Insomuch as my friend (this computer) is up and running, I would like to share some off-the-wall facts:

- The first roll of toilet paper was introduced in 1871 (tough times prior to 1871)
- Florence Nightingale carried a pet owl in her pocket (mmm, no whooo)
- Bats are the only mammals that fly (wear a hat)
- A mole can dig a tunnel 300 feet long in just one night (sink hole in the making)
- The first color TV show was the Cisco Kid (wow — I remember it) - just two more,
- The first U.S. Marines wore high leather collars to protect their necks from sabers, hence the name leathernecks (Ginny knows) and
- William Harley and the three Davidson brothers built the first Harley-Davidson motorcycle in 1903 (bet Jeff & Dawn knew this one)

Til next time, P/C Tom

Reprint articles will appear in each edition.

Beach Clean-up: Saturday 16 March

Come enjoy a one hour walk / beach cleanup
starting at 9am
at the south end of Pass-A-Grille Beach
right by the Castle Hotel.
Gloves and bags are provided or bring your own.

To start the day, we meet at the Seahorse Restaurant, Pass-A-Grille at 8am to enjoy the amazing menu for an early breakfast.

Contact Lt/C Louis McBride for more info at
louismcbride219@outlook.com

The beach cleanups are hosted by Sea Scout Ship Ballyhoo 912 every other month

Commander
Cdr Fred Hauck, JN

I'm proud to be selected to serve as your commander – I know, like last year, I was the only one to volunteer but, I am still very proud and happy to take the responsibility.

For 2024:

- We, the new bridge, have already started working on this year's boating and social events. A Boating/ Social Activities planning meeting was held 25 January at Fran and Al Lima's home. Watch for details on what was planned.
- Our SEO, Bob Cox, has a years' worth of ABC classes, courses and seminars scheduled. If we have missed a seminar or course that you would like, let him know and we'll see if we can accommodate you. Even if you are not currently boating, still take a course to challenge yourself and learn something new.
- Thanks to Sandy Krupa for taking over the Force 12.
- We continue to work on the squadron's public relations program using all types of media year-round. This effort will allow us to promote boating education to the public.
- Our February monthly meeting will feature a presentation from Sarah Grasty-Pruitt, the USF Research Project Manager for Crowd-Sourced Bathymetry (the collection of seafloor depth from vessels engaged in their routine operations using simple data logger technology).
- In March, we will not hold a monthly meeting as many of the bridge will be out of town.
- Nicole Carlisle, Senior Meteorologist, Marine Program Leader for the National Weather Service - Tampa Bay Area will be our speaker at the April Meeting.
- The Annual Meeting of United States Power Squadrons will be held in Orlando 8-10 February and District 22 Conference/Change of Watch to be held 12-13 April 2024 in Punta Gorda. Volunteers are needed to represent the squadron as delegates for the D22 conference.

Thank you to the 41 members listed on page 8 who have earned a Merit Mark for their volunteer help during 2023. **I hope to see YOUR name included next year.**

We have plenty of areas where **you** can help while earning your merit mark:
for example, become a member of our Planning Committee to explore where the squadron can improve and focus as we continue our mission,
or
become a Vessel Safety Examiner.
or
help at the Boating Course, maybe even becoming an instructor,
or
help plan and organize boating and social events, etc.

We would love to do more anchor outs, raft-ups, marina weekends and visits,
patronize local "haunts", picnics, BBQs, etc.!
If you have a favorite place - let's go together!

Remember, this is your club!

Don't forget to check out our Facebook page (**America's Boating Club - St. Petersburg**) for seminars, classes, and other events as they are posted!

Remember, living in Florida, we have the entire coastline as our water playground year-round!

So, go out and have a great 2024!

Executive Officer
Lt/C Louis McBride, P

Hello all, hope everyone had a wonderful Holiday and New Year's.

Yes, I have moved up to Executive Officer, the Department that historically works on 'outside' projects for the squadron — i.e. our Civic Service, Vessel Safety Inspections, Cooperative Charting, Beach Cleanup, Boat Shows, etc. I am sure you noticed the Vessel Safety Check sticker is for 2024, time for YOU to contact one of our Vessel Examiners listed below to have your annual inspection. Encourage any fellow boat owners you come in contact with to have their inspection done by one of our examiners too.

Thank you to Joe Muczynski who has agreed to be our Safety Officer and will be writing an article each month highlighting safety. This month's article on Buoyancy is on page 6.

As the Squadron has no Administrative Officer, the Commander and I are sharing the various Social 'inner' Activities of the Squadron. We would love suggestions, ideas, help for speakers at meetings or other social events that you think fellow members may enjoy.

Remember to mark your calendar for the following activities:

8 February – Luncheon at Portofino's Restaurant

A friendly gathering spot to meet other members SPSPS with a wonderful Italian Lunch! 11:30am

14 February – General Meeting at SPYC - ***Take your loved one out for Valentine's Day Dinner***

Keynote speaker will be Sarah Grasty-Pruitt from USF. Social starts at 5:30pm, Dinner served at 6pm and General Meeting/program at 7pm.

7 March – Luncheon at Portofino's Restaurant (same as above)

No General Meeting in March

16 March – Beach Cleanup

Help the local community at Pass-a-Grille Beach with cleaning the local beach, meetup right next to Castle Hotel. Join us for breakfast beforehand at the Seahorse at 8am and then for the Cleanup/walk at 9am.

Watch for emails with information on any other activities

Schedule your 2024 inspection!

The decal indicates that your boat has the required safety equipment.

Make sure to contact any one of our dedicated inspectors directly:

Jim Greenhalgh tbskjim@gmail.com
Al Lima bosbyshelllima@msn.com
Bob Zewski bobzewski@yahoo.com

or our chair:

Jeff Eckhart — jeffeckhart41@gmail.com or 727 295 5920

Please contact Jeff if interested in joining the 'team'!

February Meeting

14 February
St. Petersburg Yacht Club
SPYC Dinner Buffet with
2 entrees and 4 desserts:
$31 ($1 discount for cash or check)

Parking in the SPYC Garage is INCLUDED.

Special Presentation by
Sarah Grasty-Pruitt,
USF Research Project Manager

Last date to make reservations or cancellations is 5pm, Friday 9 February

Please send reservations to:
reservations@boating-stpete.org

Education Officer, Lt/C Robert Cox, Jr., JN

Happy New Year!! We are halfway through the winter, you may have noticed the weather has brought combinations of rain, high winds and sunny days, something for every boater, so I hope you have been on the water. Boating on Tampa Bay continues to be enjoyable with steady winds for sailboats and quiet near shore for those out enjoying our lengthy and rewarding fishing season.

Congratulations to Robbie Paul and Zoran Stanisic, our most recent graduates of the Advance Marine Navigation course, earning the AP designation. Both Robbie and Zoran scored in the upper 90 percentile.

We received the following information from the District 22 DEO with a new law from the State of Florida effective 31 January 2024, to add 10 additional NASBLA and 5 additional Florida questions to our ABC (Boating Safety Course) class that we teach to the public.

We closed out 2023 with the Advanced Marine Navigation Course and now look forward to the 2024 Educational season. The final 2024 Training Calendar follows below and is posted on our Squadron web-site. We are excited about getting back to a full training schedule next year. If you don't see either a course or seminar that you are interested in, please send me an email (bob_cox_spsps@yahoo.com).

	Start	Day	# Weeks	End Date	Cost w/ Book	Sharing Book

As a reminder an excellent resource for boating information is provided at Americas Boating Channel https://americasboatingchannel.com/. Also, the ABC app for your phone is an excellent resource and free for all to use. USPS created this phone app with links to several resources and boating educational and safety resources now placed conveniently at your fingertips for ready reference and ensured to enhance your safe boating experience. Check it out at Boating App from America's Boating Club https://americasboatingclub.org/app

Remember safe boating and education are the hallmark to having fun on the water; we are here to serve you and the local boating community.

Safety Article

By Lt Joe Muczynski, Safety Officer

Let's Talk About Buoyancy

When Chelsea Handler joked about Andy Richter's floating ability, he responded hilariously to her tease.
Chelsea, "Do you float in the ocean?"
Andy, "Sure! Do you sink? It might be that cast iron heart!"

You don't have a cast iron heart, but do you float? Or do you prefer that swim noodle, inner tube or inflatable mattress to stay afloat? And is buoyancy the only consideration?

Florida has more yearly boat accidents than any other state. Florida Fish and Wildlife Conservation Commission reported in 2022, "Since 2003, falls overboard has been the leading type of fatal accident, with drowning as the leading cause of death." Access the article here: https://myfwc.com/news/all-news/boating-statistics-623/#:~:text=Florida%20had%20735%20boating%20accidents,the%20leading%20cause%20of%20death

Many people, especially children, float poorly due to lack of skill. Injury associated with unexpectedly falling overboard can drown those who would otherwise float. Shock from entering the water unexpectedly can cause a gasp reflex that causes water to be inhaled into the lungs. Panic from unexpectedly falling overboard can lead to poor decision making. Dehydration, lack of sleep, fatigue or other poor planning can lead to unexpectedly falling overboard. Lack of training can lead to loss of life where rescue methods may have been successful.

Education not only improves your safety, but the safety of your boating neighbors. "Be Prepared" is a scout motto and excellent advice for those participating in boating. Being prepared in multiple ways can help prevent unexpectedly falling overboard. First aid methods can clear an airway, restore a heartbeat and manage blood loss. Regular Man OverBoard MOB drills can improve teamwork and train new crew. Boater Safety classes can sensitize unwary boaters to dangers that might otherwise be ignored or casually disregarded.

Having life jackets and floatation devices readily available saves time in an emergency. Wearing appropriate life jackets can drastically improve your chances of survival. Sizing and adjusting the life jacket is important, particularly for children. Maintain equipment to be fully functional and in good repair.

Be aware that life jacket terminology is changing. Type I, II, III and IV labeling was removed by the U.S. Coast Guard from the Code of Federal Regulations in 2014, but it is taking several years for the legacy designations to be phased out. The new US classification system for life jackets relies on performance categories. Access the article here: https://www.boatsmartexam.com/blog/florida-life-jacket-laws/

Drowning is a very large penalty, but other penalties exist for those who ignore the laws, particularly when those that need protection are endangered. Be sure you understand Florida life jacket laws and laws on international waters beyond Florida. Access info here: https://thelandaulawgroup.com/understanding-florida-life-jacket-law/#:~:text=Florida%20life%20jacket%20age%20requirements,deck%20or%20in%20a%20cabin

Follow the above links or visit https://www.youtube.com/@AmericasBoatingChannel to find these and other safe boating videos, which are an excellent tool to help recruit participants to our educational program and to membership. Invite your friends and neighbors to watch, like and subscribe to America's Boating Channel to introduce them to what our organization has to offer.

22 – Axel Hoewt
23 – Manny Carmona

So, why does our Commander have all those medals?
What's the story about our fellow members?
We plan to have a short article in each Force 12 this year in order for you to:

Get to Know the Bridge

Fred Hauck and Michele Kennedy, living and working in the northern Virginia area, both retired in 2017 and decided to return to the Tampa Bay area. With the help of another couple, they brought their boat, a Searay 420 Sundancer, down through the ICW to the Tampa Bay area.

Both Fred and Michele joined the St. Petersburg Sail and Power Squadron in 2018 in hopes of meeting like-minded boaters and partake in the educational opportunities offered.

In 2020, Fred became the Squadron's Administrative Officer, 2021-2022 he became the Executive Officer and was elected to his present position as Commander in 2023 and again in 2024.

Michele became the squadron's Secretary 2020-2021 and again in 2023 when Louis McBride fleeted up to Administrative Officer. She also became the District 22 Secretary in 2023.

Fred served in the US Navy, both active and reserve, for over 30 years, retiring in 2010, and also served as a Department of Defense (DoD) civilian with US Special Operations Command, Dept of the Air Force, Dept of the Army, Dept of the Navy and with Defense Logistics Agency, for over 22 years.

Michele served as a DoD civilian for 42 years with the Dept of the Air Force, US Special Operations Command, and DoD's Foreign Military Sales organization, the Defense Security Cooperation Agency.

Look forward to learning more about Louis McBride next edition...

Thank you to our 2023 Merit Mark Recipients!

A merit mark is the only pay anyone receives for at least 12 hours of service to USPS on the squadron, district or national level. 5 merit marks gives senior member status and 25 merit marks gives life membership and exempt from national dues. If you feel that you should have received a merit mark for your efforts in 2023 and are not listed, please contact Sue Tokarz to discuss @sitokarz@aol.com.
